MEMORANDUM FOR:   
Contract Officer

FROM : Chief, Photo Intelligence Division, ORR

SUBJECT : Watson Auto-dodging Photographic Printers

1. For improvement in photographic printing along the lines of interest expressed by us to Eastman Kodak, the Watson printer is proposed for your consideration.

2. It is suggested that the Watson printer be purchased with your funds, be made available on an immediate basis to  photo lab for evaluation and comparison with the Log Etronic printer, and then shipped to Eastman Kodak.

3. The estimated cost of the Watson printer is \$2,000.00. The principle of operation is essentially the same as that of the Log Etronic printer, but the circuitry and speed of operation reportedly are improved.
